<p>State Meeting: SB 469 Review of Final Rules</p>	<p>Dana Selover and Annabelle Henry here to present on the final rules for SB 469. See PPT for details. Key points:</p> <ul style="list-style-type: none"> • Rules effective July 1, 2016 • Hospitals will have a 3-day advance notice of OHA nurse staffing survey • OHA investigation of a patient complaint will remain unannounced • During a hospital survey, OHA focuses on compliance to the law and does not dictate how to address a specific component. • Following acceptance of a plan of correction from a hospital survey, OHA will complete a ‘revisit’, which may be virtual. • Hospitals retain the flexibility to determine what nursing care areas are included as part of the HNSC; OHA will look for a ‘reasonable determination’ of units included or excluded. Note: outpatient clinics should be reviewed to determine if it is reasonable to include in the HNSC. • Patient acuity and nursing care intensity to be included in NS plans. • Mediation process steps: either co-chair notifies OHA of impasse • Overall, lack of documentation around components of the rules may trigger a deficiency during a survey • A ‘reasonable effort’ is needed by hospitals when working on the replacement staff processes • Rules around mandatory overtime are generating multiple questions; OHA is developing an FAQ document. 	<p>OHA FAQ document to be available in September 2016</p>

Reviewed at each nurse staffing committee meeting • Had a financial impact to the system, although offset by system overhead • Learnings: best to stagger staff moves to other shifts so one shift is not depleted of resources 	Link to LMI webpage: http://lminstitute.com/
